GREEN MONKEY FEDERATION

LONG-TERM OWNERSHIP | INDEPENDENT OPERATIONS

GM

Independent brands.
One living federation.

Green Monkey Federation is developing an acquisition and long-term ownership platform for established businesses where stewardship, operating independence, and selective shared capabilities can strengthen the company without erasing what already works.

RESPECT | INTEGRITY | PRESERVATION

"Green Monkey's word is its bond."

WHAT THE MODEL MEANS

Preserve identity
Brands, history, customer relationships, and institutional knowledge remain assets.

Keep accountability close
Operating companies remain responsible for customers, products, people, and execution.

Remove barriers
Capital and shared capabilities are used where they solve a real constraint.

Think long term
The objective is durable stewardship and reinvestment, not unnecessary churn.

TYPICAL TRANSACTION PATH

Initial contact
Establish fit and interest.

IOI
Put the proposed framework in writing.

Dialogue
Test assumptions with decision-makers and advisers.

Diligence
Understand the company as it actually operates.

Structure & financing
Refine economics, governance, financing, and approvals.

Documentation & approvals
Negotiate binding agreements and complete required processes.

Closing
Move from transaction execution to stewardship.
